

Esteemed Colleagues,

As you may know, Supporting Emotional Needs of the Gifted (SENG) runs Webinar programming (which we call SENGINars) throughout the year. These SENGINars cover a wide variety of gifted topics that are of interest to educators, parents and health professionals.

As a SENNG Director, it is with pleasure that I send you this information about our first international SENGINar arranged at a time more convenient to the European audience. On Saturday, March 16, Wenda Sheard will present "Bootcamp for Determined Advocates." This will take place via the Internet at 3 p.m. GMT, 4 p.m. CET and 5 p.m. EET.

The description of this SENGINar is as follows:

*Are you determined to advocate for the best education possible for your children? Do you want to learn more about the legal, political, and educational aspects of advocacy? If you do, this SENGINar is for you.*

*Many times when a child's educational needs are satisfied, social and emotional problems are alleviated. So come fill your advocacy toolbox with new and creative advocacy ideas from a lawyer, political scientist, teacher, and long-time education advocate.*

Dr. Sheard is a former SENNG director who has lived in Hangzhou, China and currently resides outside London, teaches at an international school, and serves on the board of Potential Plus UK (formerly known as NAGC-UK). Dr. Sheard has received an award from the Ohio Association for Gifted Children, presented at state and national gifted conferences, and written articles about gifted children. She has helped teach the highly gifted portions of online gifted education courses and has presented at teacher in-service days. She has also worked, presented, and published in the political science field and served in numerous volunteer and professional capacities in the legal field.

To register or to learn more, please visit <http://www.sengifted.org/new-senginar-march-2013>

SENG also has a large library of recorded Webinars, available anytime at <http://www.sengifted.org/programs/senginars/senginar-recordings>.

Please share this news with other colleagues in the field. SENG is interested in developing more connections within the European gifted community; our July 2013 conference will feature several presenters from Europe. If I can be of any assistance in this regard, please do not hesitate to contact me.

Best regards,

Joy L. Navan, Ph.D.
